

Facial in a Bag!

First of all I would like to thank you for taking the time to help me with my project.. I have a goal of doing 30 faces in 30 days, and I need your help!

I wish I could be there to personally demonstrate our wonderful product on you, but distance keeps us apart! Everything you need to conduct your own minifacial is enclosed. You will help me by giving your honest opinion of the products, and hopefully have a little fun trying it on yourself! Just for trying, you will **receive \$5 off of your next order of \$20 or more**. Just follow these simple instructions.

I have included a directions card in your bag, which explains our fabulous "TimeWise" Products for you.

Step 1 – Cleanse:

Using the packet of **TimeWise 3-in-1 Cleanser**, squeeze ½ of the contents (save the rest for another use) into your hand and, with your fingertips, massage all over your face. Use upward, outward motions (we need to defy gravity ladies!)

Remove the cleanser with warm water or a damp washcloth.

Step 2 – Day/Night Solution

Depending on the time of day you will use the products accordingly:

Day Solution with an SPF 25 is your defense during the day from damaging UVA/UVB rays.

In the evening, you will apply the Night Solution to revitalize your skin while you sleep.

Step 3 – Moisturize

Using the packet of **TimeWise Age-Fighting Moisturizer**, squeeze ½ the contents in your hand and massage all over your face and throat. Never put moisturizer under your eyes as there are no glands there and applying moisturizer will make the skin puffy. We have fabulous eye cream for this delicate area.

Step 4 – Finish

Finish your facial with the **Color Card** enclosed. Each card contains three eye colors, a cheek color, and a lipstick.

That's it! Don't you look and feel great?! Give me a call and you can learn how To get your hands on these "Hot" products.
